

COLOR OPTIONS

Loaded with UV stabilizer for consistent color. Available in 4 standard colors, white, cream, light grey and light blue.

DURABLE

KiwiGrip is a very hard acrylic polymer providing a durable, homogeneous, elastic surface. Won't wear through and expose filler materials.

PERFECT TEXTURE

Apply over wood, fiberglass, epoxy, concrete or metal and dial in the perfect texture for your application by varying your technique.

NON-TOXIC

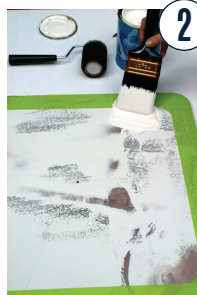

Non-toxic, no volatile solvents, very low VOC. Cleans up with soap and water.

EASY APPLICATION

1 PREP

Simply sand the selected areas flat. Clean and mask off the area before applying KiwiGrip.

2 APPLY

Apply and spread KiwiGrip onto the prepped surface. KiwiGrip can even be applied on top of other non-skid surfaces.

3 ROLL

Use the proprietary roller to achieve the texture you desire.

KiwiGrip

Non-Skid Deck Systems

KiwiGrip is a revolutionary, durable, non-skid coating that spreads quickly and easily with our proprietary roller, offering a beautiful, high traction surface. By varying the application technique, the texture can be adjusted from a rolled "pleasure boat" texture to an industrial aggressive grip "work boat" texture.

WATER BASED NON-SKID COATING

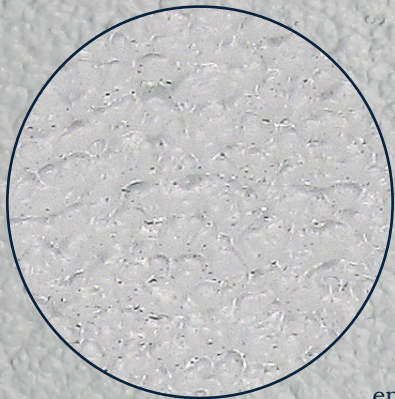

LOW-GLARE, IR REFLECTIVE FINISH

EASY TO APPLY

NON-TOXIC, NO VOLATILE SOLVENTS

As a homogeneous material, KiwiGrip doesn't suffer from the problems encountered with products filled with sand, walnut shells, beads, rubber fleck, or other fillers. Coatings with fillers tend to wear through, and the fillers fall out leaving an unsafe deck that's hard to clean and even harder to re-coat.

APPLICATIONS

SAILBOATS, POWER BOATS & COMMERCIAL

Whether you're racing, cruising, or on a commercial vessel KiwiGrip non-skid coating will increase safety!
